

IN PARTNERSHIP WITH

WHO WE ARE

The Skin of Color Society is the world's leading professional organization serving the dermatology community and the public. We are committed to educating healthcare providers and the public and supporting research and other key activities to positively impact individuals with skin of color.

OUR VISION

To advance skin of color dermatology to achieve health equity and excellence in patient care.

OUR MISSION

To promote awareness of and excellence within skin of color dermatology through research, education, mentorship and advocacy. We are committed to increasing diversity and inclusion in the field of dermatology to advance patient care.

How we **IMPACT** patients

SOCS provides outstanding skin of color dermatology education, training and mentorship opportunities for dermatologists, which ultimately has a positive impact on patients. SOCS also directly helps patients by providing educational resources to help people of color better understand their conditions and diseases.

OUR STORY

The Skin of Color Society (SOCS) is an international professional dermatologic organization dedicated to achieving health equity and excellence in patient care through research, education, mentorship and advocacy.

SOCS is committed to increasing diversity and inclusion in the field of dermatology to advance patient care. Established in 2004 by Susan C. Taylor, MD, SOCS has grown to include members from numerous countries around the world.

The SOCS membership comprises numerous nationally and globally recognized experts in the field, many of whom have made significant contributions to medical literature through skin of color textbooks, seminal research and articles.

AT A GLANCE HOW WE PROVIDE SUPPORT

SOCS provides support by offering educational resources for patients through various means, including educational videos and patient education content on the SOCS website and through our Dermatology E-learning + Equity Platform (DEEP), informative skin of color dermatology content shared on social media platforms, and a Find A Doctor feature on the website to help people identify a SOCS member in their area.
