As the largest consortium of skin disease patient advocacy organizations in the United States, we are sustained by member organization dues, sponsorships, investments and grants from industry stakeholders and in-kind contributions.

The Coalition of Skin Diseases (CSD) is a voluntary coalition of dermatological patient advocacy groups addressing the needs and concerns of the 84 million Americans whose lives are affected by skin disease.

## Our Mission

The mission of the CSD is to advocate on behalf of individuals with skin disease by:

- Fostering education and awareness of skin diseases and disorders
- Advocating for access to appropriate and quality health care and treatment
- Contributing to burden and related skin disease research, and
- Strengthening dermatologic patient advocacy organizations through the sharing of mutual concerns
