

IN PARTNERSHIP WITH

HOPE *for* **HS**

WHO WE SERVE

Hope for HS serves the patient and caregiver communities living with Hidradenitis Suppurativa

OUR VISION

Our vision to support, advocate and empower patients living with Hidradenitis Suppurativa.

OUR MISSION

Hope for HS is dedicating to supporting the lives of patients and caregivers living with Hidradenitis Suppurativa. We do this through offering support groups that hold across the

How Hidradenitis Suppurativa **IMPACTS** patients

Hidradenitis Suppurativa is a devastating skin condition that impacts the everyday lives of people suffering with it. Patients experience debilitating pain, chronic flares, and massive loss of quality of life.

OUR STORY

Founded in 2013, Hope for HS is a nonprofit organization that has been patient- and caregiver-directed from the start. Our first chapter met in Detroit, Michigan, and since then, we have been growing to meet the needs of our community. At present, we have 22 chapters across the country.

HOW WE MAKE AN IMPACT

Isolation is a devastating part of living with Hidradenitis Suppurativa. Our organization aims to alleviate that through offering meetings where patients can connect with one another.

AT A GLANCE

HOW WE PROVIDE SUPPORT

Patients and Caregivers attend our meetings for connection, support, and information from trusted medical professionals. Our meetings are designed to deliver information, but also build community within patients.
